ENJOYMENT

Legend

Designed with four-wheel driven muted massage mechanism which can move up and down in the backrest.

Programmed with 5 kinds of emulational massage functions of Shiatsu, kneading, flapping, knocking and synchronous kneading and flapping.

Blue light LCD shows all the massage functions, action, modes, time remaining, massage speed, intensity, width of the massage hands, massage position and so on. The Backlight will last one minute after turning off the machine

Programmed with manual and automatic control modes for the upper body.

Under automatic mode, it offers 3 automatic changed combinations of massage function, the whole body, the shoulder and the neck, the back and the waist. Under the manual mode, it offers 3 options of overall, fixed and partial area. Under fixed state, the massage hands can be moved up and down.

Equipped with 11 airbags with four air pressure modes and two strengths.

Automatically scanning the shoulder position after switching on the machine.

The calf rest can be power-lifted and reclined separately or together with the backrest.
