# Omega

With an advanced body detecting scan function, the Omega can set a massage according to your body shape and provide you with a specific full massage at the neck, shoulder, lower back and waist.

With a six-wheel core unit, the super long massage course can travel to the top of the neck and shoulders or travel right down to the lower back and waist.

Kneading, knocking, tapping and shiatsu massages are all available in either auto mode or can be adjusted manually for pinpoint areas.

Air bag massagers are set at the buttocks and waist as well as the calves providing for improved blood circulation and fatigue relief.

Unique FOCUS massage programs offer specifically designed problem area massaging that includes focussing on the back only, shoulder & neck only and lower back and waist only.

With the added advantage of an extendable footrest, the Omega can accommodate both taller and shorter individuals.

Available in Fine Leathers.
